THE CAYMAN ALTERNATIVE INVESTMENT SUMMIT (CAIS)

Now in its fifth year, CAIS brings together the world's leading institutional investors, fund managers, academics, economists, regulators and professional service providers to discuss the pertinent topics shaping the global alternative investment space. Since its inception in 2012, CAIS has quickly grown to become one of the most influential discussion forums within the alternative investment space. Hosted by Dart, CAIS is a not-for-profit event which uses its experts and expertise to benefit philanthropic efforts both in Cayman and internationally.
